

**Strategic Policing and Crime Board**

**19 January 2021**

**Questions from the Board on matters not on the agenda**

- 1) Is WMP still actively seeking the foreign national offenders who are at large in the West Midlands who were formerly the subject of European Arrest Warrants? Have other countries sought the renewed extradition of these individuals? How many individuals formerly subject to EAWs are believed to be at large in the West Midlands?

(To be asked by David Jamieson)

- 2) How many speeding offences were recorded by WMP in 2020 where the offender is a foreign EU national in an EU registered vehicle? How will WMP approach, a) speeding, and b) wider traffic offences by EU nationals in EU registered vehicles now that the UK has left the EU and the mechanisms for intra-EU cross border enforcement of fines no longer apply?

(To be asked by David Jamieson)
